

Leadership Training

Purpose:

The SEC Leadership Training was developed by the SEC Professional Development team to provide a deeper level of SEC knowledge. The team responded to a collaborative need to build trained SEC teams in the SEC collaborative states to assist in state efforts in using the SEC.

Background:

The two day Leadership Training has been used in Ohio for the past two years in different regions throughout the state. Following each training, the team revises the materials based on feedback from participants. It is at this time, that the SEC team is offering the leadership training to all collaborative members.

The materials can be altered to apply to your state standards and the needs of your state.

(Attach agenda here)

Feedback from Participants: (Still looking for more responses t survey monkey- I sent out another email reminder today)

“This was terrific, best SEC workshop I have attended. It was very informative and gave me ideas to use back at my school.”

“It was outstanding. Thank you for your expertise! The information is so well displayed and planned.”

“Great collaborative effort to give participants as much information and experience with SEC as possible. It would be great if we could have used our own data, but I understand the limitations.”
