Leadership Training

Purpose:

The SEC Leadership Training was developed by the SEC Professional Development team to provide a deeper level of SEC knowledge. The team responded to a collaborative need to build trained SEC teams in the SEC collaborative states to assist in state efforts in using the SEC.

Background:

The two day Leadership Training has been used in Ohio for the past two years in different regions throughout the state. Following each training, the team revises the materials based on feedback from participants. It is at this time, that the SEC team is offering the leadership training to all collaborative members.

The materials can be altered to apply to your state standards and the needs of your state.
