

With many thanks to

truenorthlogic

TrueNorthLogic (TNL) is the leading K-12 education provider of web based professional development management solutions that measure performance and lead to continuous improvement. Their award-winning solutions help State and local education agencies implement sustainable, scalable strategies for improving teacher quality including teacher preparation and induction support, licensure and certification tracking, and system support for differentiated learning and incentive models.

TNL's deep understanding of K-12 workforce management requirements comes from our experience developing and implementing statewide K-12 solutions for California, Arizona, Indiana and Utah, as well as successful implementations in leading school district such as Montgomery County Public Schools in Maryland and Minneapolis Public Schools in Minnesota. With more than one million licensed users, TNL has a proven track record helping K-12 agencies achieve educator excellence
